FOURTH-That the arena has been built so that it closes a public thoroughfare-Florence Street. In support of the first contention that the bout is to be a finish prize fight affidavits were produced signed by Osborne Clasel jr. of New York and William Hughes of White Plains, who swore they interviewed Dempsey and Carpentier at their training camps and each pugillat said he was going to win by a knockout.

The affidavits stated that the interviews were obtained yesterday when, according to all newspaper reports, both training camps were closed and not even newspaper reporters were admitted.

With a steady stream of patrons at Madison Square Garden purchasing tickets for the Dempsey-Carpentier fight, the total "gate" received thus far is in excess of \$1,200,000. Of the \$1,613 seats provided for spectators in the Jersey City arena, 60,000 have been sold.

Thousands of these seats are in the hands of speculators and, four days before the fight, the opinion to-day is that many of them will either be left in the hands of the speculators or they will have to be reduced in price. The .cason for this is alleged to be that since Rickard sounded a warninnounced that every one presenting the buying of seats from speculators has slowed up.
